

SCAM

ALERT

Don't Fall Victim to a Scam

Unfortunately, in times like these, scammers are targeting utility customers.

Here are ways to spot a scam:

Remember, Electrical District No. 3 (ED3) will never:

- Discuss payment options without verifying account information first.
- Call to threaten disconnection within an hour.
- Demand immediate payment with a prepaid card.
- Show up at your home requesting payment, or request access inside your home.
- Solicit door to door.

If at any time you question a call or a service order for your home, please call ED3's customer service at (520) 424-9021.

To report a scam, please contact your local law enforcement. Thank you.
